

*Control Products for Water and Wastewater*

**UL Listed Custom-Engineered Pump Control Panels**  
Designed and built to the  
highest degree of Quality, Reliability, and Safety.

Uncluttered intuitive panel layouts allow for reasonable working space; simplifying the panel installation, commissioning, and servicing.

From concept to completion - we work closely with our customers and consultant engineers in defining the job requirements and designing a control system

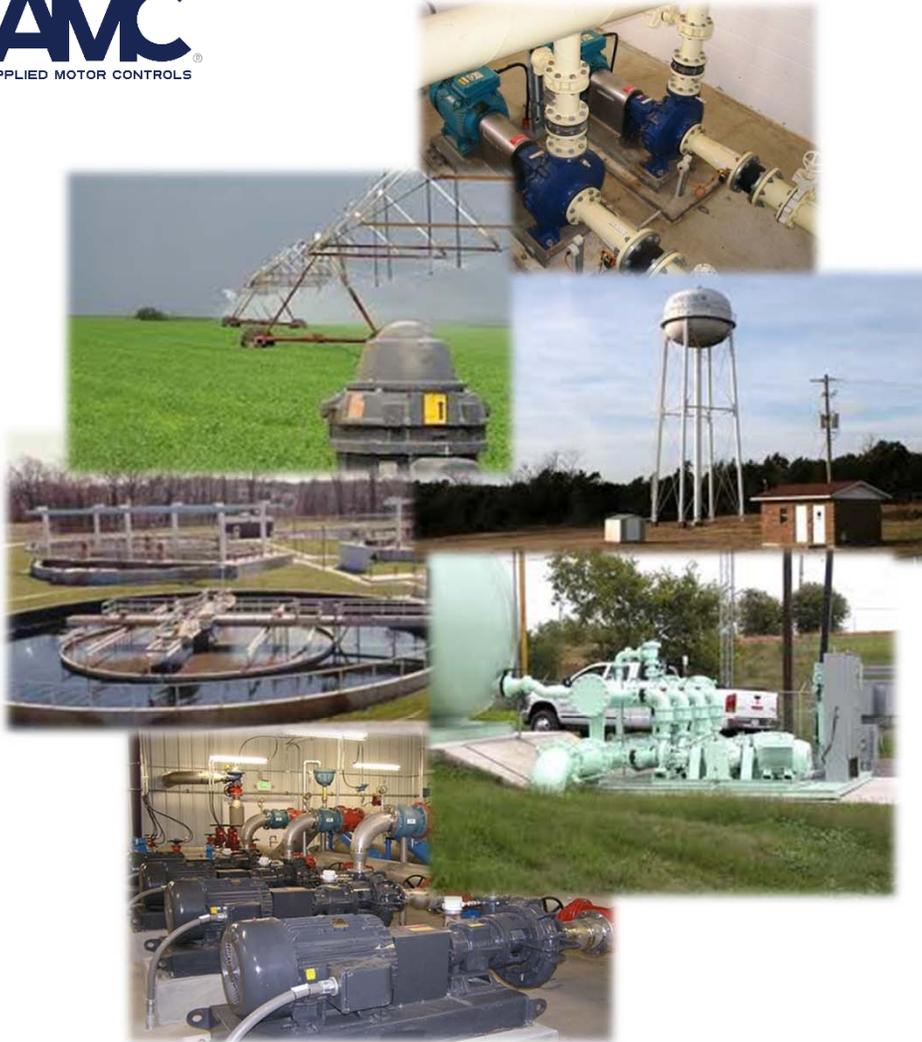

Since 2003 we have dedicated most of our resources to applications in the water pumping industry. People and Products working for You!

Applied Motor Controls offers a wide selection of **UL Listed** options including a choice of enclosure types
